Vineyard

The Tenute Vineyard covers nine hectares, creating an orderly and vital landscape that balances agricultural tradition and natural beauty. The carefully tended rows of vines provide a visual rhythm that guides the eye to the surrounding countryside and accompanies guests along walks through Sicilian soil and light. Its strategic location allows views of the entire property, from the carob trees to the garden to the historic home, creating a green thread that unites architecture and nature.

Each season transforms the vineyard: from the deep green of spring to the golden yellow of autumn, offering ever-changing and evocative scenery.

Capacity	70.000mq

Olive grove

The olive grove extends on a higher position than the vineyard, giving a panoramic view of the property and the surrounding countryside. The olive trees, with trunks sculpted by time and silvery foliage, draw a natural and harmonious rhythm that accompanies the walk and invites slowness and contemplation.

Here the landscape tells an ancient story: each tree bears the signs of the seasons and the patient work of man. In this area of the Estates, the olive tree is the real protagonist, a symbol of longevity, endurance and deep Mediterranean tradition, the guardian of an agricultural culture handed down over time.

Capacity	20.000mq

Hospitality

In the intimacy of Baglio guests can select staying in 4 types of Suite, spending a unique and exclusive experience, immersed in the tranquility of nature and the beauty of the Sicilian landscape.
